

IS YOUR DOG A CARNIVORE OR OMNIVORE?

The Definitive Test

1

ANCESTRY

Dogs evolved directly from the **timber wolf** 15,000 years ago. Would you consider a timber wolf a carnivore or omnivore?

2

TEETH

Examine your dog's **gnashers**, especially the big ones at the front. Are they similar to a wolf's teeth or our teeth as omnivores?

3

DIETARY PREFERENCE

If you **give the dog a bone** or a cob of corn, which would they prefer?

4

PACK MENTALITY

If given the chance to hunt with the pack, would your dog hunt **rabbits** or potatoes?

5

AVERAGE LIFESPAN

Would the average lifespan of your dog be longer if you fed them wheat, or meat?
